

Ensure reliable cable branching with the GALA Branch Off Clip . Essential for telecom jointing, this clip creates a perfect seal between dual cable cores. Its high-quality hot melt adhesive lining melts simultaneously with the outer sleeve shrinkage, providing a robust and moisture-resistant hold. It is used to separate 2 cores of the cable that are coming out of the joint. Its outer surface is covered with a hot melt adhesive layer.

➤ Features & Benefits

- ❖ Securely holds branch cables in position.
- ❖ Ensures uniform branch-off sealing.
- ❖ High mechanical strength.
- ❖ Quick and easy installation.
- ❖ Compatible with heat shrink branch-offs.
- ❖ Durable and corrosion-resistant.
