# Overhead Line Cover :

Insulcover is a Wrap Around Line Cover that provides retrofit insulation for Overhead Conductors to help prevent electrical outages caused by trees or wildlife coming into the contact with distribution lines. It is manufactured from high quality Non-tracking Cross-linked Polyolefin material. Gala Overhead Line Covers can be used in many applications to enhance the insulation up to 400 kV.

Insulcover is designed to insulate existing bare lines without costly conductor replacement expenditure or additional line hardware.

Installation is easy by using the Split Insulation Tube Tool which remains stationary at single location.

Features & Benefits :

❖ High Di-electric strength

❖ Excellent UV stabilized & Weather resistant

❖ Passed 5000 Hrs. UV test

❖ Tracking & Erosion resistant

❖ Prevent Conductor from Chemical corrosion effected by strong acid, alkali, salt, etc.

❖ Halogen free, Flame retardant

❖ Insulcover is available in five sizes that covers conductors up to 800 sq. mm.
